

Information regarding the value of the prescribed aid

The user's name

Swedish personal ID

Aid

ID number

Replacement value incl VAT

A prescribed aid is often used in various places and contexts, and as a user, you are responsible for:

- financial compensation for the aid if it is destroyed or damaged due to fire, theft, water damage, carelessness or vandalism, as well as compensation for injuries or damage affecting you or your property. You are also responsible for injuries or damage affecting other persons or their property, in accordance with the current rules for paying damages. You are advised to review the protection your insurance gives you.
- storing the aid in a safe way. If the aid is also used in pedagogical or daily activities, the concerned organisation shall also be informed of its responsibility for safe storage.
- reporting faults or damage to the aid. Only the Hjälpmedelsmottagning, Synenhet and the entrepreneurs employed by us are allowed to carry out/order repairs to the aid.
- giving your new address to the prescriber/Hjälpmedelsmottagning well in advance if you are planning to move.
- returning the aid when it is no longer needed.
