

Invitation to healthcare examination

We have booked a health examination for you with a nurse; please see the other document with details of appointment time and place. You are receiving this invitation because you have just arrived in Sweden.

The purpose of the health examination is to perform a review of your health to help you be as healthy as possible. The health examination involves conversations about your health and taking samples; you do not have to be fasting. An interpreter in your language is booked. The interpreter has a duty of confidentiality.

The health examination is an offer and participation is voluntary. The health examination is free of charge and takes about one hour. If you are unable or unwilling to attend, please reschedule or cancel the appointment.

The results of your health examination will not affect your option to stay in Sweden. The Swedish Migration Agency will not be informed about the results of the examination.

What to bring to the visit (if you have them): ID card, LMA card, passport or residence permit card.

If you have documents with previous vaccinations, you are welcome to bring them as well.

The name of the nurse you are going to meet; you can see appointment date and time in the other document. There you can also find our address and phone number.

Welcome!
