

Cudurrada [Kalamidiya/gonokocker] ama Mycoplasma genitalium Shaybaarka kaadida

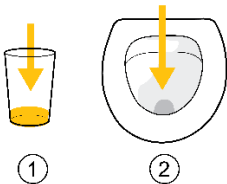

WAXYAALAHAN AYAA U BAAHAN TAHAY

Koob blaastiik ka sameeysan. Bakeerigii shaybaarka laga soo siiyay rugta daryeel-caafimaadeedka. Daawada khasacadda ku jirta halis ma aha haddii hab caadi ah loo adeegsado. Haddii daawada ay maqaarkaaga gaarto biyo isaga dhaq.

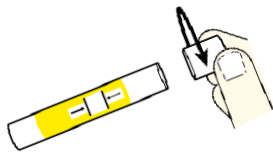

SIDATAN YEEL

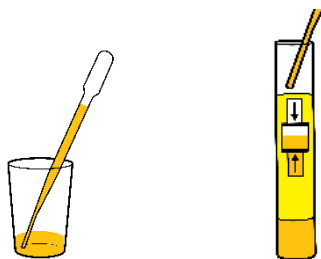

Iska qaadida shaybaarka kahor waa in ugu yaraan hal sac ay ka soo wareegatay tan iyo markii ugu dambaysay ee aad kaadiyeysay.

- 1) Marka hore inyar, qiyaastii afar meelood hal desiliter ku kaadi koob nadiif ah.
- 2) Kaddib musqusha ku kaadi.

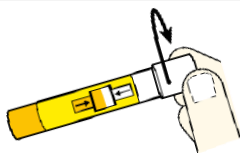

Adigoo taxadar ka ah furka ka saar tuubada. Hoorka waa in u tuubada ku hara.

Adigoo adeegsanaayo qoriga dhuuban [pipetten] ka soo duuq kaadida koobka ku jirta.

Kaadida ku dhexjirta qoriga dhuuban ku wareeji tuubada, heerkeeda waa in loola sima **labada falaar** dhexdooda ee ka muuqdaan dariishada tuubada.

Si fiican furka ugu xir tuubada.

Adigoo adeegsanaayo istikerkii daryeel-caafimaadeedka laga soo siiyay, ku qor **tuubada** magacaaga, tobanka lambar ee aqoonsiga, taariikhda shaybaarka iyo saacadda.

Isla maalintaa aad shaybaarka iska qaaday waa inaad daryeel-caafimaadeedka gacanta ka saarta. La kaalay kaarka aqoonsiga.
